

Firing Points

Winter 2013

The Newsletter of the PHARR RIFLE & PISTOL CLUB

Vol. 21 No. 1

NEW ELECTRIC & SECURITY

- We have the go-ahead on upgrading our electrical service at the range. If you see electricians working, please stay out of the way.
- With the electrical upgrade will come security measures. It will be very obvious all over the range. It has become necessary to make sure that people are behaving properly.
- We suggest that one read over the rules very carefully. Those found blatantly disregarding the rules will be found blatantly without a place to shoot.
- We are setting up for the final phase of the range rebuilding program, the implementation of a classroom at the range. Plans call for a structure large enough for firearms instruction, club meetings, and gatherings for non-profit youth mentoring organizations. In addition we plan a large outdoor portico which will also be suitable for meetings and

- instruction.
- A classroom is, of course, expensive. It is hoped to obtain the classroom before the end of 2013. A lot of planning and set up will be required.
- We have applied to the NRA Foundation for assistance in funding some of the outside features for the classroom. The Club has been very active in the annual Friends of NRA fundraisers held by the NRA foundation over the past decades. We should have word on any assistance by March.
- We have a new youth program. The kids will be shooting on the 25 yard range on 4th Sundays while Black Powder occurs on the 100. More youth programs will follow.
- Remember, no shooting after sundown. Sundown is defined as the sun below the rim where you are standing.

Match Schedule

Jan: IPSC on the 6th.
Cowboy on the 13th.
Steel speed on the 20th.
Black Powder on the 27th.
